

P5 - Unit 1 - Lesson 7 - HTML Review

Patti, Jerusha, Saranii

HTML - Vocabulary

HTML - Hypertext Markup Language used to code text for web browsers to read
t

Mini Lesson - HTML Review

HTML uses tags which are the symbols that tell the text what we want it to do. The following are the basic ones we covered:

`<h1></h1>`heading largest

`<h2></h2>`heading second largest

`<h3></h3>`heading third largest

`<h4></h4>`heading 4th largest

`<h5></h5>`heading 5 largest

`<h6></h6>`heading - smallest

HTML - cont'd

`<p></p>` paragraph

`` `` unordered list and list item for each item

`` ``

`
`

``Word here to click`` - inserts a link

`` inserts an image either uploaded or from a link

Work Period

**Write at least two to three paragraphs about your cultural sketch/culture. Then use at least one heading <h1>-<h6>, <p>,
 <ul or ol> and a link to a web source about your culture and an image of your culture. An image must be either a jpg, jpeg, gif, or png. If you want to use anymore HTML that we haven't covered or if you want to learn more you can use the slide deck I gave you or you can also go to W3Schools.com to learn more.**

Closing: Exit Ticket

What did you learn?

What did you have trouble with?

What do you want to learn more about?
